STEP 2 SCREENING

Let's talk!

If we think you meet our eligibility requirements, our Network Development Team will prepare a preliminary Evaluation Report on the information you've given us.

Then, we'll invite you to engage in a more in-depth information exchange with us so that we can better understand each other's respective mission, vision, potential, shortcomings, and expectations for the future.

STEP 3 FINAL APPLICATION

Let's make it official!

After our chat, if we find that your organisation wholly adheres to our criteria, we will formally invite you to apply to become a Network Member. We will send you a Membership Application Questionnaire.

While you fill that out and send it back, our Network Development Team will consult two external references that are familiar with your work.

With the information and documents you provide to us in your Membership Application Questionnaire, we will complete a Membership Evaluation Report. If the evaluation is positive, we will recommend your organisation for membership to our Network Board. This Network Board, which consists of five elected Network Members, will conduct a final vote on your organisation's acceptance into the streetfootballworld Network. Should all of their votes be affirmative, you will be accepted as a Network Member.
